

## Disposal Guidelines for Asbestos

1. Submit copy of State License and insurance certificate prior to disposal event.
2. Georgia EPD GEOS 14-day Asbestos Project Notification submittal number must be provided prior to disposal event.
3. Provide Waste Shipment Record (WSR) for all loads.
4. All material for disposal must be packaged as recommended by Georgia EPD and EPA.
5. Material must be unloaded by hand if friable. If material is non-friable, material can be unloaded by hand or handled per Georgia EPD's "Recommended Procedures for Bulk Handling of Non-Friable Asbestos Containing Waste Material".
6. All workers unloading asbestos must wear the proper personal protective equipment (clothing and respirator).
7. Workers must be supervised while unloading.
8. Extra packaging material (plastic bags, tape and labels) must be available to repackage asbestos if necessary.
9. Disposal must be scheduled between the hours of 10:00 AM and 2:00 PM, Monday through Friday. At least 24 hours prior notice is required.
10. Disposal fees are \$44.00 per ton and \$250.00 per disposal event for waste handling. (Note – the \$250.00 per disposal event charge for waste handling must be paid via a separate check at the time of disposal.)
11. Payment is required at the time of disposal, unless other arrangements are made prior to disposal. Contact our office regarding credit.
